

Hayle NP Vision & Objectives
Draft Method Statement
 Your consultants will construct a series of topic themes from the evidence and survey responses received. Together with the outputs from your recent discussions on visioning, they will be used to inform the drafting of a draft vision, aims and objectives. The SG will be asked to approve these for consultation purposes.
 Following a period of consultation (method to be determined) the response will be analysed and reported back to the SG. The SG will be asked to agree a revised neighbourhood planning framework comprising: a Vision Statement, Plan Aims and Objectives.
 Hayle Town Council will be asked to adopt the framework for its Neighbourhood Plan and the basis of the plan's policies.
